

VidyoPortal™

The VidyoPortal is an intuitive web-based environment for accessing the functionality of the VidyoConferencing™ solution. Through the VidyoPortal, one can access the administrative controls to manage the operational aspects of the VidyoConferencing solution. An administrator can configure and manage the entire VidyoConferencing system and its components.

The VidyoPortal enables any conference participant to initiate meetings and point-to-point calls. With VidyoConferencing, every licensed user has their own meeting room, and can start a meeting with a single click. Licensed users can browse the directory for other users, control the audio and video of their own meeting participants, and create their own quick contact list for additional single-click-to-attend actions.

One click to attend your meeting or a speed dial. Find a person with just a few letters and call.

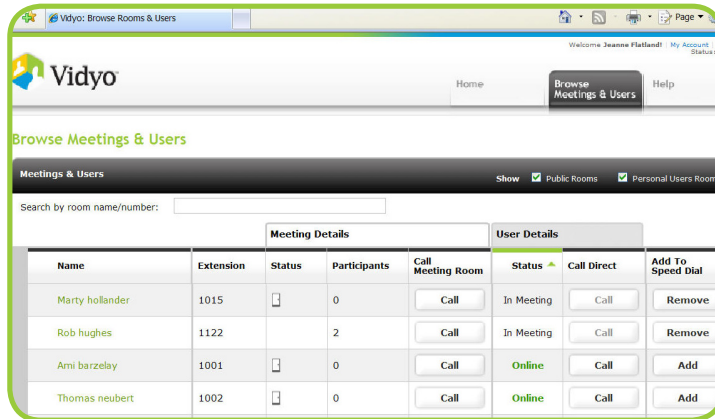

As an End User, you can:

- Sign-in securely
- Start your own meeting
- Join a meeting
- Place a direct call to any user in the system
- Easily search for any user by typing a name, or portion of a name, in the form field
- Browse meetings and users
- Control your own meeting
- Manage your own personal “My Speed Dial” list
- Edit your personal account and set your individual preferences

As an Administrator, you can:

- Sign-in securely as an administrator or operator
- Create and manage the users of the VidyoConferencing system
- Create and manage the meeting rooms in the system – public and personal
- Assign Users to Groups and manage their permissions
- Configure settings for the system as a whole
 - Platform network settings
 - Manage port and seat licensing
 - Upload endpoint (VidyoDesktop and VidyoRoom) software for automatic software upgrade
 - View system’s components and clients status
 - Define basic customization – upload your own logo
- Control in-progress meetings: Administrators can control aspects of current meetings as if they were the meeting organizer

VidyoPortal Specifications

◀ The VidyoPortal gives you the option to sort on any column.

Inherent System Features

- Supported Web Browsers: Microsoft Internet Explorer 6, 7, 8; Mozilla Firefox 3; Apple Safari 3, 4; Google Chrome
- Support “clickable-links”: Subscribed users and guest participants can join a conference by clicking a web link
- Provides load-balancing and “floating port licenses” across multiple VidyoRouters™ which enables:
 - Scalability
 - Redundancy
 - “Follow the Sun” deployments
- Externally accessible Call Detail Reporting (CDR)
- Personal and public rooms: reservation-less conferencing model
- Predefined legacy devices (H.323 and SIP based) in Address Book
 - Add legacy device as a new user
 - Call a predefined legacy device from the User Portal
- LDAP/Active Directory Support
 - Pass-through Authentication
 - Offline importation tool
- Integrated with VidyoRouter for ‘all-in-one’ departmental deployments – supports up to 50 HD participants on a single server platform
- Secure login and browsing (HTTPS)
- Linux-based server appliance

Physical Specifications

Dimensions	
Height	14.96” (380 mm)
Width	16.92” (430 mm)
Depth	1.7” (43.4 mm)
Gross Weight	11 lbs (4.98 kg)
Form Factor	1U Rackmount
Back Panel	
Ports	2 x RJ45 LAN ports - 100BASE-TX and 1000BASE-T, 1 x External Serial Port, 2 x RJ-45 ports, 2 x USB2.0 ports, 1 x VGA port, 1 x PS/2 Keyboard port, 1 x PS/2 Mouse port
Front Panel	
Buttons	Power On/Off button
LEDs	Power LED, Hard drive activity LED, 2 x Network activity LEDs, System Overheat LED
Ports	2 x USB2.0 Ports
Operating Environment	
Operating Temperature Range	10° to ~35°C (50° to 95° F)
Non-Operating Temperature Range	-40° to ~70°C (-40° to 158° F)
Non-Operating Humidity Range	20% to ~ 90% (non-condensing)
Regulatory	
US/Canada (UL1950-CSA950), Europe (CE, EN55022 compliance to EU Directive 89/366/EEC), Europe (TUV), US (FCC, CFR47 Part 15, Class A, Class B), Europe (CE, EN55022 & EN55024), Australia (C-TICK), Taiwan (BSMI), China (CCC)	
Power Supply	
INPUT: 100-240v ~, 4-2A, 60-50Hz OUTPUT: 220w Single Power Supply
