

VidyoRoom™ HD-50

The VidyoRoom HD-50 lowers the entry price for an HD video conferencing room system. The HD-50 can encode up to 720P and up to 30 FPS. It supports dual monitors to display conference participants on one monitor and shared applications on the other. Connect a Vidyo-certified USB-based video camera to complete the system. The VidyoRoom was specifically designed for use over converged IP networks.

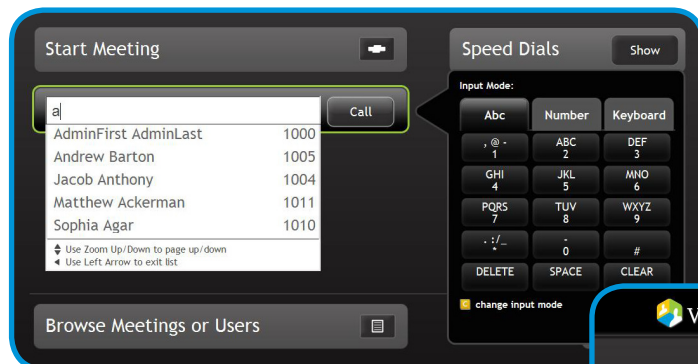

The VidyoRoom system is simple to use, easy to configure and supports both voice-activated and continuous presence layouts. The VidyoRoom interoperates seamlessly with VidyoDesktop™ clients, making it possible for people to join a conference from their home office or anywhere else they happen to be.

Features and Functions:

- **Intuitive Graphical User Interface** – consistent with the VidyoDesktop Client - makes operating the VidyoRoom simple and straightforward
- Call initiation and entry into Private Meeting Room achieved with only one click
- **Full and automatic integration** with the VidyoPortal's user database. No need to maintain a local address book
- **Dual-screen view** – Participants on one screen, shared applications on separate screen
- Participants can **toggle between other users' shared windows** (not just a single share)
- **Individual Layout Control** – Toggle between equal view of all participants (continuous presence) or whichever person speaking is shown in larger window (voice activated 1+N layout)
- **Speakers and microphone mute, Video privacy mode**
- **Web-based configuration**
- Advanced **Far-End-Camera-Control** during a conference
- **Laptop Screen Sharing** through the optional VGA input device
